Re: Continental Materials, Inc. – Asphalt

Mr. DiStefano,

Thank you for your inquiry regarding the use of Continental Materials Asphalt products in GAF Materials Corporation roofing assemblies. GAF accepts Continental Materials Type III or Type IV asphalt that has been tested in accordance with the standards set forth by ASTM D312, for both the standard and No Smell™ asphalt products produced at the following locations.

- Baltimore, MD
- Denver, CO
- Douglasville, GA
- East Chicago, IN
- Maracaibo, Venezuela
- Mertztown, PA
- Salt Lake City, UT
- Tuscaloosa, AL

GAF would accept both the Type III or Type IV products depending on GAF’s specification and installation requirements, in the GAF Roof Design Considerations for Asphalt Systems as applicable. Please refer to the GAF Diamond Pledge or GAF System Pledge guarantees for specific warranty coverage(s) and limitations. Also, refer to the current GAF Roofing Systems Detailed Specifications, on our web site at www.gaf.com, for detailed assembly information and requirements. If you have any questions, or require further assistance, please contact me at 1-973-317-5965.

Sincerely,

J. W. Strickland
